INTERNSHIPS

WEB DEVELOPMENT Intern at DREAM LEARN	2025-2026
--	------------------

Developed and deployed two MERN stack web applications with RESTful APIs using Node.js and Express.js. Integrated MongoDB with optimised queries, improved UI performance by 25%, and managed version control using Git.

PROJECTS

Signify – Sign Language Converter AWS	2025
--	-------------

Built a bidirectional sign language system enabling **Text/Voice/File-to-Sign** and **Sign-to-Text/Audio** conversion using real-time gesture recognition and dataset-driven mapping. Deployed scalable cloud processing with AWS for speech recognition and API-based communication.

Tech stack: React.js, Python, AWS (S3, Lambda, Transcribe, API Gateway, EC2), MediaPipe

Life Trax – Digital Health Record Management System SIH	2026
--	-------------

Developed a migrant healthcare platform with a **Unique Digital Health ID**, doctor portal, and A multilingual offline voice chatbot to manage records and improve access in low-connectivity areas, enabling **early health monitoring and preventive care to reduce disease outbreak risks**.

Tech stack: React, Spring Boot, PostgreSQL, Rasa, AWS, TensorFlow Lite, REST APIs

Quiz Cortex – Online Quiz Management System	2025
--	-------------

Architected and delivered a full-stack MERN application enabling teachers to create quizzes and students to attempt them online. Implemented JWT-based authentication and role-based access control for secure user management. Automated quiz evaluation and result generation, reducing manual assessment effort by 50%. Deployed frontend on Vercel and backend on Render.

Tech stack: React.js, Node.js, Express.js, MongoDB, JWT, Vercel, Render.
